

tralac Training Week 2022

Introduction to Data Science e-Learning Course

Facilitator: John Stuart
tralac Associate

tralac is offering a one-week introductory e-Learning course for trade analysts and economists to come up to speed with the techniques and methods of 'data science' – the field of acquiring, analysing and applying advanced analytics techniques and scientific principles to extract valuable information from data for business decision-making, strategic planning and generation of actionable insights for many of the problems that trade analysts are required to solve.
