AU MEMBER STATES PARTICIPATION AT GLOBAL LEVEL

• Individual member states are party to various agreements (http://ref.scielo.org/2pznk4)

• Often subscribe to 'common positions' in negotiations as the African Group at WIPO and WTO
  • https://www.wto.org/english/tratop_e/dda_e/groups_by_country_e.htm

• Relevance: African positions at global and other levels ought to cohere (policy coherence)

• AfCFTA IP Protocol presents an opportunity to craft co-operation in IP founded on relevant, responsive and coherent positions

• Therefore, the African Group position on the TRIPS Waiver Proposal is relevant
TRIPS WAIVER PROPOSAL

• Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS Agreement)

• Binding on WTO member states

• Regulates copyright and related rights; trademarks; geographical indications including appellations of origin; industrial designs; patents including the protection of new varieties of plants; the layout-designs of integrated circuits; and undisclosed information including trade secrets and test data.

**EU PROPOSAL, 2021**

- a proposal for a draft General Council declaration on the TRIPS Agreement and Public Health in the circumstances of a pandemic ([IP/C/W/681](#)) - European Union June 21, 2021

- NOT A WAIVER - limiting export restrictions, supporting the expansion of vaccine production, and facilitating the use of current compulsory licensing provisions in the TRIPS Agreement, particularly by clarifying that the requirement to negotiate with the right holder of the vaccine patent does not apply in urgent situations such as a pandemic, among other issues.
TRIPS Council agrees to continue discussions on IP response to COVID-19

At a meeting of the Council for Trade-Related Aspects of Intellectual Property Rights (TRIPS) on 20 July 2021, WTO members agreed to continue consideration of the proposal for a temporary waiver of certain TRIPS obligations in response to COVID-19 and other related proposals. Members approved a status report which they tasked the chair to deliver at the General Council at its next meeting on 27-28 July.
IMPLICATIONS

• negotiations may start in September 2021 = almost a year since the proposal was tabled and very divergent positions are still evident – no global solution on the horizon

• African states have an opportunity to provide IP policy and legislative guidance on how to use existing patent laws & introduce appropriate reforms to meet healthcare needs

• **IP Protocol can consolidate and provide policy coherence**
  • RECs have led on some of these aspects e.g.
    • The two African IP organisations have significant legislative and policy making influence in their member states, how can the AfCFTA IP Protocol consolidate this?

• **National, sub-regional & regional action is imperative**
