<b>GENERAL INFORMATION</b> .....	<b>19</b>

**GDP in the third quarter of 2018 rose by 2,2%<sup>1</sup>**

Real gross domestic product (measured by production) increased by 2,2% in the third quarter of 2018, following a decrease of 0,4% in the second quarter of 2018.

**Figure 1 – Growth in GDP (%)**

The largest positive contributors to growth in GDP in the third quarter were the manufacturing, finance, transport and trade industries.

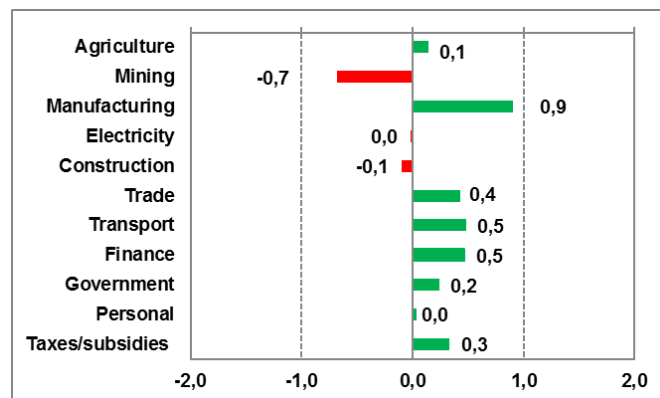

The manufacturing industry increased by 7,5% and contributed 0,9 of a percentage point to GDP growth.

The finance, real estate and business services industry increased by 2,3% and contributed 0,5 of a percentage point.

The transport, storage and communication industry increased by 5,7% and contributed 0,5 of a percentage point.

Negative contributions to GDP growth came from the mining, electricity and construction industries.

**Figure 2 – Contributions to growth in GDP, Q3 2018 (% points)**

<sup>1</sup> Unless otherwise specified, growth rates are quarter-on-quarter, seasonally adjusted and annualised. All growth rates are calculated on the basis of series at constant prices.

Expenditure on real gross domestic product increased by 2,3% in the third quarter of 2018, following a decrease of 0,7% in the second quarter of 2018.<sup>2</sup>

**Figure 3 – Growth in expenditure on GDP (%)**

Household final consumption expenditure increased by 1,6% in the third quarter of 2018, contributing 1,0 percentage point to total growth.

Government final consumption expenditure increased by 2,2%, contributing 0,4 of a percentage point.

Gross fixed capital formation decreased by 5,1%, contributing -1,0 percentage point.

Changes in inventories in the third quarter contributed 2,8 percentage points to total growth.

Exports increased by 24,2% and imports increased by 26,7%. Net exports contributed -0,9 of a percentage point to total growth.

**Figure 4 – Contributions to growth in expenditure on GDP, Q3 2018 (% points)**

<sup>2</sup> The figures showing growth in expenditure on GDP exclude the residual, calculated as the difference between GDP measured by production and the sum of the expenditure components. For more detail see Table 30 on the Stats SA website.

**Gross domestic product at constant 2010 prices: third quarter of 2018**

**Primary sector**

The agriculture, forestry and fishing industry increased by 6,5% and contributed 0,1 of a percentage point to GDP growth. The growth came from an increase in the production of field crops, horticultural products and animal products.

The mining and quarrying industry decreased by 8,8% and contributed -0,7 of a percentage point to GDP growth. This was largely the result of low production in mining of 'other' metal ores including platinum, iron ore, gold, copper and nickel.

**Figure 5 – Mining and quarrying growth rate (%)**

**Secondary sector**

The manufacturing industry expanded by 7,5% in the third quarter. The divisions that made the largest contributions to the increase were basic iron and steel, metal products and machinery; wood, paper and publishing; petroleum, chemical products, rubber and plastic products; and motor vehicles, parts and accessories and other transport equipment.

The electricity, gas and water industry decreased by 0,9% in the third quarter, largely due to a decrease in electricity produced and consumed.

The construction industry decreased by 2,7%. Decreases were reported for non-residential buildings and construction works activities.

**Figure 6 – Manufacturing growth rate (%)**

**Tertiary sector**

The trade, catering and accommodation industry increased by 3,2%. Increased economic activity was reported in wholesale trade, retail trade and food and beverages.

The transport, storage and communication industry increased by 5,7%, as a result of increases in land transport, air transport, transport support services and communications.

**Figure 7 – Transport, storage and communication growth rate (%)**

Finance, real estate and business services increased by 2,3% in the third quarter. Increased economic activity was reported for financial intermediation, insurance, auxiliary activities, real estate activities and business services.

General government services increased by 1,5%, mainly attributed to increases in employment.

Personal services increased by 0,7%.

**Expenditure on gross domestic product at constant 2010 prices: third quarter of 2018**

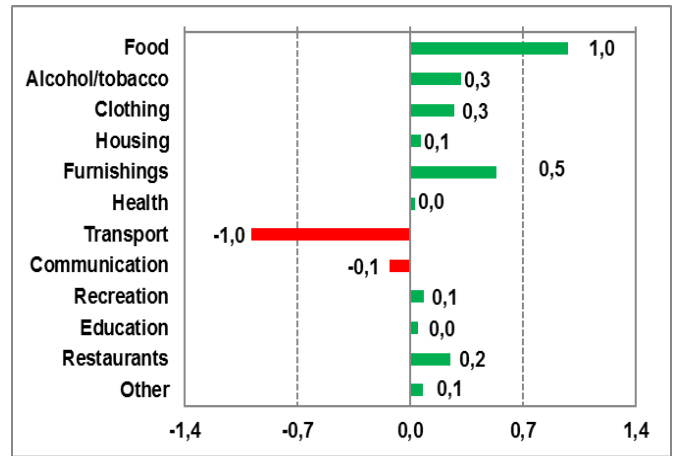

**Household final consumption expenditure (HFCE)**

Household final consumption expenditure increased by 1,6% in the third quarter, contributing 1,0 percentage point to total growth. The main contributors to growth in HFCE were expenditures on food and non-alcoholic beverages (5,3% and contributing 1,0 percentage point), furnishings, household equipment and maintenance (6,6% and contributing 0,5 of a percentage point), clothing (5,0% and contributing 0,3 of a percentage point) and alcoholic beverages and tobacco (7,3% and contributing 0,3 of a percentage point).

**Figure 8a – HFCE growth rate (%)**

**Figure 8b – HFCE contributions, Q3 2018 (% points)**

**Government final consumption expenditure (GFCE)**

Final consumption expenditure by general government increased by 2,2%. Increases in spending on goods and services and compensation of employees were reported in the third quarter.

**Gross fixed capital formation (GFCF)**

Gross fixed capital formation decreased by 5,1%. The main contributors to the decline were activities associated with construction works, transport equipment, non-residential buildings and transfer costs.

**Figure 9a – GFCF growth rate (%)**

**Figure 9b – GFCF contributions, Q3 2018 (% points)**

**Changes in inventories**

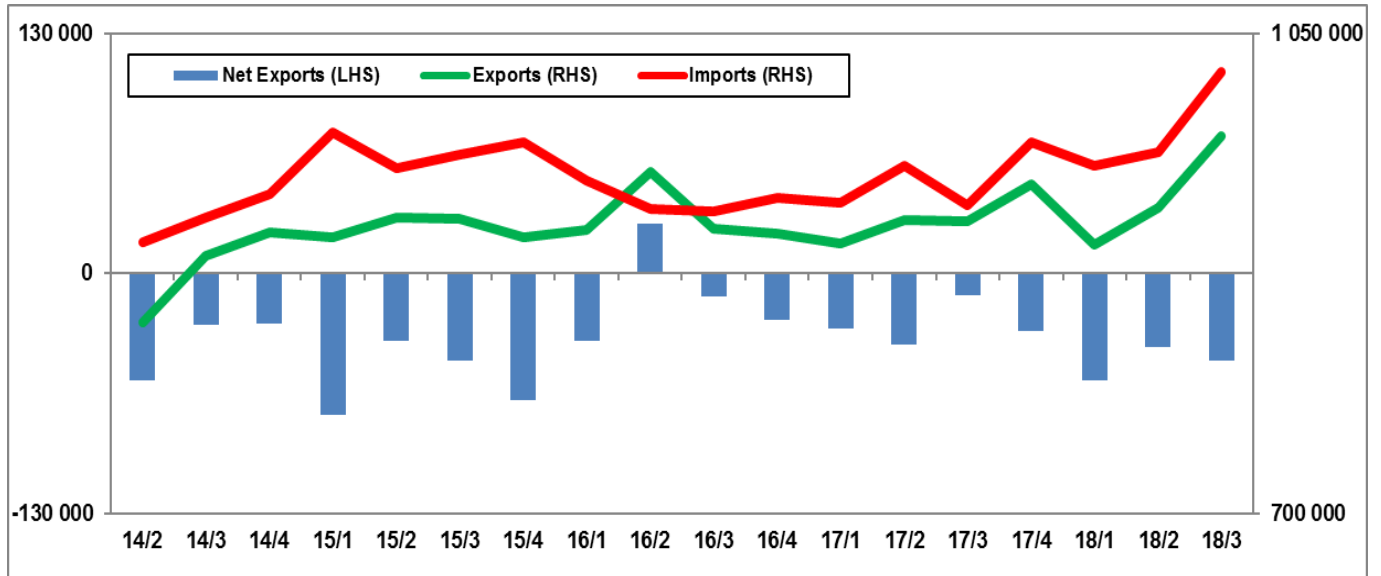

There was a R12,7 billion buildup of inventories in the third quarter of 2018. Large increases were reported in manufacturing and trade.

### Exports and imports of goods and services

Net exports contributed negatively to growth in expenditure on GDP. Exports of goods and services were up 24,2%, largely influenced by increasing trade in vehicles and transport equipment, base metals, vegetable products and precious metals.

Imports of goods and services increased by 26,7%, driven largely by an increase in imports of machinery and electrical equipment, vehicles and transport equipment, chemical products and mineral products.

**Figure 10 – Exports and imports of goods and services (R million, seasonally adjusted and annualised)**

## GENERAL INFORMATION

Stats SA publishes approximately 300 different statistical releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used extensively, not only locally but also by international economic and social-scientific communities, Stats SA releases are published in English only.

Stats SA has copyright on this publication. Users may apply the information as they wish, provided that they acknowledge Stats SA as the source of the basic data wherever they process, apply, utilise, publish or distribute the data; and also that they specify that the relevant application and analysis (where applicable) result from their own processing of the data.

### Advance release calendar

An advance release calendar is disseminated on [www.statssa.gov.za](http://www.statssa.gov.za)

### Stats SA products

A complete set of Stats SA publications is available at the Stats SA Library and the following libraries:

National Library of South Africa, Pretoria Division  
National Library of South Africa, Cape Town Division  
Natal Society Library, Pietermaritzburg  
Library of Parliament, Cape Town  
Bloemfontein Public Library  
Johannesburg Public Library  
Eastern Cape Library Services, King William's Town  
Central Regional Library, Polokwane  
Central Reference Library, Nelspruit  
Central Reference Collection, Kimberley  
Central Reference Library, Mmabatho

Stats SA also provides a subscription service.

### Electronic services

A large range of data are available via on-line services, diskette and computer printouts. For more details about our electronic data services, contact (012) 310 8600.

You can visit us on the internet at: [www.statssa.gov.za](http://www.statssa.gov.za)
