ACT

To amend the Disaster Management Act, 2002, so as to substitute and insert certain definitions; to clarify policy focus on rehabilitation and functioning of disaster management centres; to align the functions of the National Disaster Management Advisory Forum to accommodate the South African National Platform for Disaster Risk Reduction; to provide for the South African National Defence Force, South African Police Service and any other organ of state to assist the disaster management structures; to provide for an extended reporting system by organs of state on information regarding occurrences leading to the declarations of disasters, expenditure on response and recovery, actions pertaining to risk reduction and particular problems experienced in dealing with disasters; to strengthen reporting on implementation of policy and legislation relating to disaster risk reduction and management of allocated funding to municipal and provincial intergovernmental forums established in terms of the Intergovernmental Relations Framework Act, 2005; to strengthen the representation of traditional leaders in national, provincial and municipal disaster management advisory forums; to expand the contents of disaster management plans to include the conducting of disaster risk assessments for functional areas and the mapping of risks, areas and communities that are vulnerable to disasters; to provide measures to reduce the risk of disaster through adaptation to climate change and developing of early warning mechanisms; to provide for regulations on disaster management education, training and research matters and declaration and classification of disasters; and to provide for matters incidental thereto.

BE IT ENACTED by the Parliament of the Republic of South Africa, as follows:—

Amendment of section 1 of Act 57 of 2002

1. Section 1 of the Disaster Management Act, 2002 (hereinafter referred to as the principal Act), is hereby amended—

   (a) by the insertion before the definition of “Department” of the following definitions:

   ‘‘adaptation’’ means—

   (a) in relation to human systems, the process of adjustment to actual or expected climate and its effects, in order to moderate harm or exploit beneficial opportunities; and
(b) in relation to natural systems, the process of adjustment to actual climate
and its effects;
   ‘climate change’ means a change in the state of the climate that can be
identified by changes in the variability of its properties and that persists
for an extended period, typically decades or longer;”;
(b) by the substitution for the definition of “Department” of the following
definition:
   “‘Department’ means the principal department that supports the
   Cabinet member referred to in section 3;”;
(c) by the substitution for subparagraph (iii) of paragraph (a) of the definition
   of “disaster” of the following subparagraph:
   “(iii) significant disruption of the life of a community; and”;
(d) by the insertion after the definition of “disaster management” of the
   following definition:
   “‘disaster risk reduction’ means either a policy goal or objective, and
   the strategic and instrumental measures employed for—
   (a) anticipating future disaster risk;
   (b) reducing existing exposure, hazard or vulnerability; and
   (c) improving resilience;”;
(e) by the insertion after the definition of “district municipality” of the following
definition:
   “‘ecosystem’ means a system of relationships between animals and
   plants and their environment;”;
(f) by the substitution for the definition of “emergency preparedness” of the
   following definition:
   “‘emergency preparedness’ means—
   (a) a state of readiness which enables organs of state and other
   institutions involved in disaster management, the private sector,
   communities and individuals to mobilise, organise and provide
   relief measures to deal with an impending or current disaster or the
   effects of a disaster; and
   (b) the knowledge and capacities developed by governments, profes-
   sional response and recovery organisations, communities and
   individuals to effectively anticipate, respond to and recover from
   the impacts of likely, imminent or current hazard events or
   conditions;”;
(g) by the substitution for the definition of “mitigation” of the following
   definition:
   “‘mitigation’, in relation to—
   (a) a disaster or disaster risk, means the lessening of the potential
   adverse impacts of physical hazards, including those that are
   human-induced, through actions that reduce hazard, exposure and
   vulnerability; or
   (b) climate change, means a human intervention to reduce the sources
   or enhance the sinks of greenhouse gases;”;
(h) by the insertion after the definition of “municipal entity” of the following
definition:
   “‘municipality’ means a municipality as contemplated in section 2 of
   the Local Government: Municipal Systems Act, 2000 (Act No. 32 of
   2000);”;
(i) by the substitution for the definition of “organ of state” of the following
   definition:
   “‘organ of state’ means a national, provincial or municipal organ of
   state any organ of state referred to in section 239 of the Constitution of
   the Republic of South Africa, 1996;”;
(j) by the substitution for the definition of “post-disaster recovery and
   rehabilitation” of the following definition:
   “‘post-disaster recovery and rehabilitation’ means efforts, including
development, aimed at creating a situation where—
(a) normality in conditions caused by a disaster is restored by the restoration, and improvement, where appropriate, of facilities, livelihoods and living conditions of disaster-affected communities, including efforts to reduce disaster risk factors;  
(b) the effects of a disaster are mitigated; or  
(c) circumstances are created that will reduce the risk of a similar disaster occurring;  

(k) by the insertion after the definition of “response” of the following definition:  
  “risk assessment” means a methodology to determine the nature and extent of risk by analysing potential hazards and evaluating existing conditions of vulnerability that together could potentially harm exposed people, property, services, livelihoods and the environment on which they depend;”; and  

(l) by the substitution for the definition of “vulnerability” of the following definition:  
  “vulnerability” means the conditions determined by physical, social, economic and environmental factors or processes, which increase the susceptibility of a community to the impact of hazards.”.
