We, the Ministers, have met in Abu Dhabi, United Arab Emirates, from 26 to 29 February 2024 for our Thirteenth Session. As we conclude our session, we would like to express deep appreciation to the Government and people of the United Arab Emirates for their excellent organization of the Conference and the warm hospitality we have received in Abu Dhabi.

1. Our Thirteenth Session takes place as we mark the 30th anniversary since the establishment of the WTO. On this occasion, we reaffirm the principles and objectives enshrined in Marrakesh Agreement and underline the critical importance of the rules-based, non-discriminatory, open, fair, inclusive, equitable and transparent multilateral trading system with the WTO at its core.

2. We acknowledge that during these 30 years, WTO Members have sought to fulfil the objectives reflected in the Preamble to the Marrakesh Agreement consistent with Members' respective needs and concerns at different levels of economic development. Important progress has been made. We resolve to further strengthen the multilateral trading system to provide meaningful impetus to address global challenges.

3. We stress the importance of implementation of the WTO agreements, Ministerial Decisions and Declarations and take note of the progress on some issues reflected in the reports from the General Council and its subsidiary bodies. We instruct the relevant WTO bodies to expedite further work.

4. We reaffirm our commitment made at our Twelfth Session to work towards necessary reform of the WTO to improve all its functions and acknowledge the progress made in this regard. We note and value the work done to date to improve the daily functioning of WTO Councils, Committees and Negotiating Groups with a view to enhancing the WTO's efficiency, effectiveness, and facilitation of Members' participation in WTO work. We instruct the General Council and its subsidiary bodies to continue to conduct this work and report progress as appropriate to the next Ministerial Conference.

5. [Dispute Settlement Reform]

6. We resolve to preserve and strengthen the ability of the multilateral trading system, with the WTO at its core, to provide meaningful impetus to respond to current trade challenges, take advantage of available opportunities, and ensure the WTO's proper functioning. [We acknowledge that Members have engaged on and explored some of these issues and recognise the need to deepen dialogue.]

7. We underscore the importance of open, inclusive, resilient, sustainable, diversified and reliable global supply chains, and their role in ensuring that production and trade can more easily recover from crisis and disruptions. We note the work being done in WTO bodies, especially on transparency including information sharing, and welcome efforts to promote the resilience of global supply chains.

8. We reiterate the centrality of the development dimension in the work of the WTO. We recognise that the full integration of developing Members, including least-developed countries (LDCs), in the multilateral trading system is important for their economic development and stress the need to make positive efforts so that the gains from trade benefit them in accordance with the Marrakesh Agreement.

1 A report containing the state of play of this work since MC12 can be found in document WT/MIN(24)/7.
9. We recognise the particular vulnerability and special needs of LDCs. In this regard, we underscore that their interests should be given due priority for them to secure meaningful integration into the multilateral trading system.

10. Recalling that, at our Twelfth Session, we recognised the role that certain measures in the WTO can play to facilitate smooth and sustainable transition for Members after their graduation from LDC Category, we welcome the Decision adopted by the General Council in WT/L/1172.

11. We recognise the importance of the Aid for Trade initiative for developing Members, in particular LDCs, for trade-related capacity building. We look forward to the outcomes of the Ninth Global Review and recognise the continuing need for this Initiative.

12. We reaffirm our commitment to the Work Programme on Small Economies and to facilitate the integration of small, vulnerable economies (SVEs) into the multilateral trading system by continuing to highlight their priorities and seek solutions in all aspects of the work of the WTO.

13. We acknowledge the importance of dedicated sessions on transit at the Committee on Trade Facilitation. We instruct the Committee on Trade and Development to hold focused sessions, to assess trade-related challenges identified for the fuller integration of Landlocked Developing Countries (LLDCs) into the multilateral trading system. The Committee on Trade and Development shall report to the General Council and propose recommendations, if any, to the Fourteenth Session of the Ministerial Conference.

14. In recalling the objectives in the Marrakesh Agreement and in recognizing the role that the multilateral trading system can play in contributing towards the achievement of the UN 2030 Agenda and its Sustainable Development Goals, in so far as they relate to the WTO mandate, we underscore the importance of trade and sustainable development in its three pillars – economic, social, and environmental.

15. We recognise the importance of an inclusive and equitable multilateral trading system that enhances WTO Members' relations in the field of trade and economic endeavour with a view to supporting development and raising standards of living, including for developing Members and LDCs, and contributes to ensuring the gains of trade benefit all, within and among Members. [We welcome further work by Members to hold thematic discussions on trade inclusiveness [insofar as they relate to Members concerning their multilateral trade relations]. Such thematic sessions shall be under the overall supervision of the General Council, which should report, as appropriate, to the Fourteenth Session of the Ministerial Conference.]

16. [We recognise that women's economic empowerment and women's participation in trade contributes to economic growth and sustainable development. We take note of WTO work, including in collaboration with other relevant international organizations, through activities such as capacity-building initiatives and sharing experience to facilitate women's participation in trade.[2]]

17. [We recognise the important role that Micro, Small and Medium-sized Enterprises (MSMEs) play in economic growth, sustainable development, and poverty reduction in all WTO Members, while noting the differences in context, challenges, and capabilities of MSMEs among Members. We take note of the WTO work, including in collaboration with other relevant international organizations through activities such as capacity-building initiatives, sharing of experience, and relevant tools and platforms to facilitate MSMEs participation in international trade.[3]]

18. Members recognise the role and importance of services to the global economy as it generates more than two-thirds of global economic output and accounts for over half of all jobs. Services play a critical role in providing a stable environment for economic growth and development and tackling global challenges. We acknowledge the need to facilitate the increased participation of developing Members, including LDCs, in global services trade paying particular attention to sectors and modes of supply of export interest to them. We acknowledge the importance of the work undertaken in the Council for Trade in Services (in regular and special session) and its subsidiary bodies and commit
