DRAFT TEXT ON AGRICULTURE

Introduction by the Chair of Committee on Agriculture, Special Session

This document represents my best efforts to reflect, as faithfully as possible, the state of negotiations as of 16 February 2024 in a draft text to be submitted to Ministers in advance of MC13. While progress has been achieved in the drafting sessions following the circulation of the first draft text in document RD/AG/128 dated 29 January 2024, Members’ negotiating positions remain divergent on several issues. Keeping in mind that the whole draft text is bracketed, the brackets shown in this document identify the issues where the widest divergence remains. I acknowledge the ongoing efforts by Members to narrow the gaps and build convergence towards an agreed outcome at MC13, including by streamlining the text. I remain available to support such efforts. While this text represents my best efforts to help Members in their desire to reach a successful outcome on agriculture at MC13, the final outcome is dependent on them working together to address the outstanding issues and making the necessary compromises.

This draft text should be read in conjunction with document JOB/AG/259 dated 16 February 2024 containing the compilation of Members’ textual suggestions and annexes presented during the discussions on the draft text in RD/AG/128.
**DRAFT TEXT ON AGRICULTURE**

*Emphasizing* the critical role that a rules-based, non-discriminatory, open, fair, inclusive, equitable and transparent multilateral trading system with the WTO at its core can play in addressing contemporary challenges faced by the food and agricultural systems including climate change and its impacts;

*Expressing* our deep concern that the share of people facing hunger in the world was around 9% of the global population, concentrated predominantly in developing countries, including least developed countries (LDCs), as recently estimated by the Food and Agriculture Organization of the United Nations;

*Underscoring* our determination to make progress towards the achievement of a fair, equitable and market-oriented agricultural trading system, ending hunger, achieving food security and improved nutrition, promoting sustainable agriculture and food systems, and promoting the adoption of resilient agricultural practices that enhance productivity and production in fulfilment of Sustainable Development Goal 2 of the United Nations, taking into account the interests of small-scale food and agriculture producers in developing countries;

*Reiterating* our commitment to take concrete steps to facilitate trade and improve the functioning and long-term resilience of global markets for food and agriculture, with a view to enhancing global food security and ensuring that the agriculture sector continues to make a positive contribution to addressing contemporary sustainability challenges;

*Noting* with concern the limited progress on most agriculture negotiating issues to date, especially at the Eleventh and Twelfth Sessions of the Ministerial Conference, and recognizing that much work remains to be done to successfully conclude the negotiations;

*Recognizing* the work undertaken by the Committee on Agriculture (CoA), including under paragraph 8 of the Ministerial Declaration on the Emergency Response to Food Insecurity in relation to the needs of Least-Developed and Net Food-Importing Developing Countries (NFIDCs);

*Reiterating* that trade, along with domestic production, plays a vital role in improving global food security in all its dimensions and enhancing nutrition; and emphasizing that progress in the negotiations will contribute to enhancing global food security;

We, the Ministers, having met in Abu Dhabi from 26 to 29 February 2024 at our Thirteenth Session of the Ministerial Conference of the World Trade Organization (MC13), decide accordingly:

1. Members reaffirm their commitment to continue the agriculture negotiations in accordance with the reform objective of Article 20 of the Agreement on Agriculture (AoA) and subsequent Ministerial and other Decisions on agriculture. Members shall accordingly make all concerted efforts towards achieving tangible progress and balanced outcomes in the negotiations by the Fourteenth Session (MC14). [Members hereby agree and adopt a permanent solution to the issue of public stockholding for food security purposes.]

2. Members acknowledge the Report prepared by the Chair of the Special Session of the Committee on Agriculture (CoA-SS) under his own responsibility¹, which summarizes the state of play in the negotiations. Members welcome the work done by the CoA-SS as reflected in the Chair’s Report and commit to revitalize and intensify the negotiations after MC13 on outstanding issues. The negotiations shall build on the work undertaken thus far and be based on discussions among Members, and their existing and future submissions.

3. Members reiterate the importance of predictable agricultural and input markets and of facilitating trade in these products, including by reducing the time and procedural costs related to their importation and exportation, in conformity with WTO agreements. Members may also consider discussing the role and impact of trade-restrictive measures, with a view to enhancing

---

¹ Document TN/AG/58.
their transparency and predictability and minimizing negative consequences and risks for exporters and importers.

4. Recognizing the acute challenges faced by the most vulnerable Members, while affirming Members' right to apply such measures pursuant to existing WTO disciplines, and without prejudice to any future outcomes on export restrictions, Members agree that net food-exporting Members of a specific foodstuff shall, to the extent possible, refrain from imposing export prohibitions or restrictions on such foodstuff imported by LDCs as well as by NFIDCs that are net importers of that foodstuff for their domestic consumption to ensure their current food security needs, taking due account of past levels of imports from the related exporting Member concerned during a representative period.

5. Members recognize the importance of the implementation of existing notification and transparency obligations under Article 18 of the AoA to provide notifications in a timely, complete and comprehensive manner. The WTO Secretariat shall provide technical assistance to Members facing capacity constraints in fulfilling their notification and transparency requirements, at their request.

6. Special and differential treatment for developing countries shall be an integral part of the negotiations. LDCs shall be exempted from undertaking reduction commitments. The non-trade concerns of Members shall be taken into account in the negotiations.

DOMESTIC SUPPORT

7. Members commit to pursue and intensify negotiations on domestic support, including by discussing and analysing all forms of trade-distorting support, with a view to reducing substantially and progressively the most distorting forms of such support in a fair and equitable manner and improving disciplines in accordance with the reform objective in the AoA within a reasonable timeframe to be agreed by Members. [Modalities shall be agreed and a decision adopted by MC14.]

8. Members' contributions to the reduction effort should take into account, inter alia, their global market participation, the needs of developing Members, and the interests of exporters and concerns of importers; and encourage a shift towards less trade-distorting forms of domestic support. Product specific concentration of support should also be considered. Modalities should reflect different treatment depending on the effects of the support provided.

9. These negotiations shall preserve the special and differential treatment of developing country Members and LDCs, including support to low-income or resource-poor farmers, as well as to encourage diversification from growing illicit crops.

10. Members are advised to provide the value of production data, including for specific products, in their DS:1 notifications to substantiate de minimis claims.

MARKET ACCESS

11. Members commit to pursue and intensify negotiations on agricultural market access with a view to reducing substantially and progressively protection in a fair and equitable manner to improve market access opportunities for all Members and improving disciplines in accordance with the reform objective in the AoA and within a reasonable timeframe to be agreed by Members. [Modalities shall be agreed and a decision adopted by MC14.]

12. These negotiations may address tariff reduction and other elements, such as tariff simplification, tariff escalation, high tariffs and tariff peaks, tariff rate quotas, and special agricultural safeguards, taking into account exporting Members' interests and importing Members' sensitivities, including non-trade concerns. Technical discussions on relevant market

2 The LDCs are exempted from the commitment contained in this paragraph.
3 The situation of recently graduated LDCs will be considered.
access elements shall support these negotiations to facilitate a common understanding on the elements to be addressed and to facilitate Members’ effective participation in the negotiations.

SSM

13. Pursuant to the Nairobi Ministerial Decision (WT/MIN(15)/43–WT/L/978), Members shall pursue and intensify negotiations in Dedicated Sessions of the CoA-SS on a special safeguard mechanism for developing country Members, as envisaged under paragraph 7 of the Hong Kong Ministerial Declaration (WT/MIN(05)/DEC), and to which the developing country Members will have the right to have recourse under paragraph 1 of the Nairobi Ministerial Decision. [Modalities shall be agreed and a decision adopted by MC14.] / [Members agree to work towards achieving modalities by MC14.]

14. To this end, Members agree to engage in enhanced technical discussions on specific themes relevant to the special safeguard mechanism referred to in paragraph 13. Technical elements of the existing Special Agricultural Safeguard instrument in Article 5 of the AoA and the experience gained in its implementation since 1995 may also be considered.

15. The General Council shall regularly review progress in these negotiations.

EXPORT PROHIBITIONS AND RESTRICTIONS

16. Members agree to continue discussions on ways to enhance transparency and predictability of export prohibitions and restrictions and to improve [the implementation of] disciplines in Article 12 of the AoA and Article XI:2(a) of the GATT 1994. [Members agree to work towards achieving tangible outcomes by MC14.]

17. To this end and taking due consideration of Members’ right to impose export prohibitions and restrictions in accordance with WTO rules, Members agree to explore ways in the CoA to review the ER:1 notification format specified in G/AG/2 to facilitate timely access to clear and relevant information by Members having a substantial interest as importers, taking into account the capacity constraints of developing country Members. The discussions shall take into account the interests of all Members, with particular attention paid to the needs of LDCs and NFIDCs. These discussions may include elements such as clarifying relevant terms in Article 12 of the AoA and Article XI:2(a) of the GATT 1994, and considering factual information and data as appropriate.

EXPORT COMPETITION

18. Members reaffirm their commitment to ensure an effective implementation and monitoring of the Nairobi Ministerial Decision on Export Competition (WT/MIN(15)/45–WT/L/980), including by reviewing and exploring ways in the CoA to update the existing transparency requirements, and by making best efforts to improve the response rate to the export competition questionnaire, taking due account of the capacity constraints of developing country Members.

19. Members agree to continue negotiations to enhance disciplines on export credits, export credit guarantees or insurance programmes, agricultural exporting state trading enterprises and international food aid as may be necessary to ensure that these measures do not result in a circumvention of export subsidy elimination commitments and to prevent non-commercial transactions from being used to circumvent such commitments. [Members agree to work towards making tangible progress in these negotiations and make appropriate decisions as necessary by MC14, building on the evidence amassed during the annual reviews undertaken in the CoA.]

20. Special consideration shall be given to the needs and circumstances of least-developed and net food-importing developing countries, including by exploring ways to enhance the transparency of the implementation of the Nairobi Decision on Export Competition in relation to the specific provisions therein for LDCs and NFIDCs on export credits, export credit guarantees or insurance programmes and international food aid.
COTTON TRADE-RELATED COMPONENT

21. Members undertake to pursue and intensify negotiations on cotton trade-related measures based on Members’ submissions, and pursuant to the cotton-related elements of the Hong Kong Ministerial Declaration (WT/MIN(05)/DEC), as complemented by the Bali Cotton Ministerial Decision (WT/MIN(13)/41-WT/L/916), and the Nairobi Cotton Ministerial Decision (WT/MIN(15)/46-WT/L/981) to address it ambitiously, expeditiously and specifically within the agriculture negotiations. These negotiations shall seek to reduce substantially and progressively the most trade-distorting domestic support for cotton. [Specific modalities [on domestic support] shall be agreed, and a decision adopted by MC14.] / [Members agree to work toward agreeing specific modalities [on domestic support] at MC14.]

22. The negotiations shall also seek to significantly reduce market access barriers, pursuant to the Ministerial outcomes listed in paragraph 21, for cotton-producing and exporting LDCs. Members are encouraged to open their markets allowing greater purchases of cotton products and byproducts from cotton-producing LDCs, including through the offer of duty-free quota-free market access.

23. Members undertake to continue efforts aimed at enhancing transparency and monitoring of cotton-related trade measures affecting the global cotton market through the Dedicated Discussions on Cotton held on a bi-annual basis, as mandated by paragraphs 5, 6 and 7 of the Bali Ministerial Decision on Cotton (WT/MIN(13)/41-WT/L/916) and confirmed in paragraph 14 of the Nairobi Ministerial Decision on Cotton (WT/MIN(15)/46-WT/L/981). Members reaffirm the need to respect their notification obligations in the context of the required transparency.

COTTON DEVELOPMENT ASSISTANCE COMPONENT

24. Members reaffirm that development-related aspects of cotton shall be addressed as provided for in paragraph 12 of the Hong Kong Ministerial Declaration (WT/MIN(05)/DEC) and paragraphs 10, 11, 12 and 13 of the Nairobi Ministerial Decision (WT/MIN(15)/46-WT/L/981).

25. Members reiterate their commitment to the rules-based multilateral trading system, which strengthens the possible synergies between trade in cotton, productive investment and development assistance for LDCs. They recognize the need for an inclusive partnership that makes cooperation and negotiations the preferred instruments for finding the most appropriate solutions to the considerable systemic and cyclical challenges faced by cotton-producing and exporting LDCs, in particular the C-4 countries.

26. Members underscore the central role of the WTO Director-General’s Consultative Mechanism on Cotton as an international forum of reference bringing together the various stakeholders of the global cotton community (public and private sectors, and multilateral agencies) and as an effective multilateral consultation platform for the development of cotton-producing and exporting LDCs. As such, they agree to coordinate cotton development assistance interventions, follow up on completed and ongoing projects, and use this platform to attract and mobilize further investment with a view to promoting and supporting the production, processing and marketing of cotton and its by-products in LDCs.

27. Members welcome the initiatives undertaken with development partners over recent years such as partner conferences, World Cotton Day, or [WTO-FIFA Memorandum] / [Memoranda of Understanding signed by the WTO], aimed at better integrating the cotton sector of LDCs, in particular the C-4 countries, in global value chains for value-added products deriving from cotton and its byproducts, and encourage all development partners to intensify their efforts in this perspective.
Pursuant to the Bali Ministerial Decision (WT/MIN(13)/38-WT/L/913), the General Council Decision (WT/L/939), and Nairobi Ministerial Decision (WT/MIN(15)/44-WT/L/979), Members adopt a permanent solution as set out in Annex [...] to this Decision.

OR

Pursuant to Bali Ministerial Decision (WT/MIN(13)/38-WT/L/913), the General Council Decision (WT/L/939), and the Nairobi Ministerial Decision (WT/MIN(15)/44-WT/L/979), Members undertake to pursue and intensify negotiations on PSH in Dedicated Sessions of the CoA-SS and agree and adopt a permanent solution on the issue of public stockholding for food security purposes by MC14, which shall be available to all developing country Members. Public stockholding programmes shall not distort trade or adversely affect the food security of other Members.

The negotiations for a permanent solution shall pay particular attention to the food security challenges of LDCs and NFIDCs, and consider all relevant issues, including domestic food security targets of the programmes; product coverage; safeguards and anti-circumvention, including with respect to exports; transparency; and legal certainty. They shall also consider the impact of inflation on calculations of the Aggregate Measurement of Support.4]

Taking into account the acute food security challenges and vulnerabilities of developing country Members, in particular LDCs [and NFIDCs], Members agree to extend, until [MC14], the Bali Interim Solution established by the Ministerial Decision of 7 December 2013 (WT/MIN(13)/38-WT/L/913) and the General Council Decision of 27 November 2014 (WT/L/939) to public stockholding programmes for food security purposes of LDCs [and NFIDCs that are net importers of the product concerned] enacted after 7 December 2013. The General Council shall regularly review progress in these negotiations.

[TIMELINE FOR IMPLEMENTATION]

[...]

4 This could involve considering eligible production and reviewing the external reference price in the broader context of domestic support negotiations.
