## Central Statistical Office

## Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for susta ina ble national development and decision-making.

I would like to urge our readers and users of sta tistic al information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

## YEAR ON YEAR FOOD AND NON-FOOD INRATION RATE

The year on year (Annual) food inflation rate for August 2017 was recorded at 5.1 percent compared to 5.3 percent recorded in July 2017. This represents a decrease of 0.2 percentage points. The decrease in the annual food inflation rate is mainly attributed to price changes for Bread and cereals (breakfast Mealie meal, roller meal and maize grain), Meat (Tbone, Mixed cut, Brisket, Mincemeat and Sausage) and Table salt.

The year on year (Annual) non-food inflation rate for August 2017 was recorded at 7.7 percent, from 8.1 percent recorded in July 2017, indicating a decrease of 0.4 percentage points. The decrease in the annual non-food inflation is mainly attributed to the decreases of some items in the Transport CPI division (Diesel, Petrol, car battery, motor cars).

## NATIONALAVERAGE PRICES FOR SELECTED PRODUCTS

The Consumer Price Basket consists of 440 items and over 23,000 price quotations are collected from selected outlets in all the districts in

Zambia from $1^{\text {st }}$ to $10^{\text {th }}$ of every month. The table below shows the maximum and minimum prices for selected items and the location in August, 2017.

| Product Description | Unit of <br> Measure | Minimum |  | Maximum |  |
| :--- | :--- | :---: | :--- | :---: | :--- |
|  |  | Price (K) | Location | Price (K) | Location |
| Breakfast Mealie Meal | 25 kg | 60.00 | Kapiri Mposhi, Kafue, Lusaka, Siavonga | 130.00 | Mufumbwe |
| Roller mealie meal | 25 kg | 32.00 | Lusaka | 90.00 | Chienge |
| Maize Grain | 20 litre tin | 15.00 | Mufumbwe | 60.00 | Nakonde, |
| Dried Kapenta (Mpulungu) | 1 kg | 50.00 | Mpulungu | 312.5 | Lusaka |
| Charcoal | 50 kg bag | 20.00 | Mporokoso, Mungwi, Zambezi, <br> Namwala | 90.00 | Ndola |
| Cement | 50 kg | 57.00 | Luashya, Lusaka | 85.00 | Mporokoso |

Source: CSO, Pric es Statistics, 2017

On a monthly basis, a comparison of retail prices between August 2017 and July 2017 shows that the national average price of a 25 kg bag of Breakfast Mealie meal decreased by 12.8 percent from K88.58 to K77.27 while the national average price of a 25 kg bag of Roller Mealie meal decreased by 12.3 percent from K65.84 to K57.73. The national average price of a 20 litre tin of Maize grain
decreased by 8.5 percent from K33.97 to K31.07.
On an annual basis, a comparison of retail prices between August 2016 and August 2017 shows that the national average price of a 25 kg bag of Breakfast Mealie meal decreased by 9.1 percent from K84.99 to K77.27. The national average price of a 20 litre tin of Maize grain decreased by 11.20 percent from K34.99 to K31.07.

## INTERNATIONAL MERCHANDIZE TRADE

## July 2017 records a Trade Surplus

In July 2017, Zambia recorded a trade surplus valued at K410.6 Million from a trade deficit of K335.7 Million recorded in June 2017. This represents a 222.3 percent
increase in the trade balance. This means that the country exported more in July 2017 than it imported in nominal terms.

Performance of Exports (Traditional and Non-Traditional Exports (TEs and NTES)), July and J une 2017*

There has been an increase of 21.2 percent in the total value of Metal exports (TEs) from K4,386.1 Million in J une 2017 to K5,314.0 Million in July 2017. The overall contribution of Metals and their products to the total export eamings in July and June 2017 averaged 76.8 percent.

Non Traditional exports (NTEs) on the otherhand have recorded a decrease of 9.6 percent from K1,522.0 Million in June 2017 to K1,376.6 Million in July 2017. The share of NTEs recorded an average of 23.2 percent in revenue eamings between J uly and J une 2017.

## Zambia's Copper Export Volumes and London Metal Exchange (LME) Prices, J anuary to July 2017.

## Zambia's Exports of Copper by Volume and corresponding prices at the London Metal Exchange (LME), J anuary to J uly 2017

Between July and J une 2017, the volume of Copper exported significantly increased by 16.4 percent, from 81,489.1 metric tonnes recorded in J une 2017 to 94,851.5 metric tonnes in July 2017.

On the other hand, the corresponding price of Copper on the London Metal Exchange increased by 4.9 percent from USD5,699.48 per metric tonnes in June

2017 to USD5,978.60 per metric tonnes in July 2017.

Since Copper accounts for the largest weight/ proportion of Traditional Exports, any change in the volume and price/value has a direct bearing on the performance of Traditional Exports.

Zambia's Top 25 Non-Traditional Exports (NTEs), J uly and J une 2017

Zambia's major Non-Traditional Exports (NTE) for July 2017 were Cobalt oxides and hydroxides; commercial cobalt oxides in bulk, which accounted for 7.4 percent, followed by New stamps; stamp-impressed paper, cheque forms;

Bank notes, etc -postage, revenue stamp, which accounted for 6.1 percent.

Other notable NTEs in July 2017 were Cotton, not carded or combed (5.5 percent) and Bullion semi-manufactured forms which accounted for 4.5 percent.

## Zambia's Major Export Destinations by Commodity in J uly 2017

The major export destination in July 2017 was Switzerland, which accounted for 50.2 percent of the total export eamings. The major export products to Switzerland were Copper anodes for electrolytic refining, accounting for 47.3 percent.

China was the second main destination of Zambia's exports accounting for 11.8 percent of the total export eamings. The major export product to China was Copper blister, accounting for 57.8 percent of total export eamings to that country.

South Africa was the third main export destination accounting for 10.1 percent of the total export eamings. The major
export product was Cathodes of refined copperaccounting for 39.9 percent

Congo DR was the fourth main export destination accounting for 5.8 percent of the total export eamings. The major export products were Sulphuric acid; oleum in bulk accounting for 13.6 percent of total export ea mings to that country.

The fifth main export destination was Hong Kong, which accounted for 4.1 percent of the total export eamings. The major export products were Coppercobalt alloy, accounting for 83.2 percent. These five countries collectively accounted for 82.0 percent of Zambia's total export ea mings in J uly 2017.

| (iv) Structural cross-border trade 9/ | 200,000 |  |  |  |  |  | 200,000 |
| Total requirements | 2,997,350 | 78,776 | 395,000 | 50,847 | 238,426 | 809,503 | 4,339,354 |
| $\begin{aligned} & \hline \text { C. } \\ & \text { Surplus/deficit (A-B) } \\ & 10 / \end{aligned}$ | 1,178,516 | -40,000 | -146,765 | 0 | 0 | 114,305 | 1,101,060 |
| D. <br> Potential Commercial exports 11/ | -1,178,516 | 40,000 | 146,765 | 0 | 0 | 0 | 0 |
| E. <br> Food aid import requirements 12/ | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| Notes: |  |  |  |  |  |  |  |
| 1/ Stocks held by commodity traders, millers, brewers, FRA, DMMU and commercial and small scale farmers as at 1st May 2017 |  |  |  |  |  |  |  |
| 2/ Production estimates by MoA/CSO. Cassava production is based on the total area under cassava, using an annual yield figure of 11.7 tonnes per hectare (MAFF Root and Tuber Improvement Programme, 1996). A flour extraction rate of $25 \%$ is used. |  |  |  |  |  |  |  |
| 3/ Human staple food consumption represents $70 \%$ ( $1,470 \mathrm{kCal} /$ person/day, CSO) of total diet ( $2,100 \mathrm{kCal} / \mathrm{person} /$ day, National Food and Nutrition Commission), for the national population of 16.1 million people (based on CSO Census projections with 2017 and 2018 average population used).The food balance shows an overall surplus of staple foods. Food prices may affect the level of food consumption. |  |  |  |  |  |  |  |
| 4/National strategic requirements expected to be carried over into the next season by FRA. (this amount of 500,000 Mt includes equivalent to 3 months cover) |  |  |  |  |  |  |  |
| 5/Estimated requirements by major stockfeed producers. |  |  |  |  |  |  |  |
| 6/Estimated requirements by industrial breweries |  |  |  |  |  |  |  |
| 7/Estimated retention of grain for other uses by smallholders. |  |  |  |  |  |  |  |
| 8/ Post-harvest losses are estimated at 5\% for grains, sweet potatoes and cassava, in line with estimates from other SADC countries. |  |  |  |  |  |  |  |
| 9/ Structural exports represents cross-border trade, mostly to the DRC, that occurs on a continuing basis and that is likely to occur during the 2017/18 marketing season. It does not include Formal trade. |  |  |  |  |  |  |  |
| 10/ Expected surplusses or deficits that arise after meeting minimum overall staple human consumption requirements as well as industrial requirements. The total surplus/deficit is expressed as maize equivalent using energy values. |  |  |  |  |  |  |  |
| The rice deficit is based on a 3 year rolling average of what is known to be imported each year, as indicated under D . |  |  |  |  |  |  |  |
| 11/ Commercial imports/exports represent expected regional and international trade by the private sector. For cassava, the surplus represents cassava that is still in the ground and may not necessarily be harvested |  |  |  |  |  |  |  |
| 12/ Total estimated requirement for food relief among vulnerable groups, to be imported. This could be met with maize or other grains. |  |  |  |  |  |  |  |
