We collaborate on all aspects of OD ecosystem

Leadership

Technology / Infrastructure

Policy / Legal Framework

Innovation Financing

Open Data

Institutions

Citizen Engagement

Capacity Building

Applications & Co-Creation

We help partner countries with:

- Open Data assessments and Action Planning

- Launching, implementing and financing Open Data Initiatives

- Open data - supply side
  - OD Platform development and technical data production, cleaning and publication in compliance with open data standards)

- Open data - demand side
  - Stakeholder socialization via TechCamps, Hackathons, Data clinics, Innovation and App Challenges, Media training through Journalism Bootcamps

- Addressing policy and legal issues (Open Data Policy and licensing)

- Analytical work

- Building partnerships and connecting with practitioners

ODRA – Open Data Readiness Assessment Tool

Eight Pillars

(1)   Senior Leadership

(2)   Policy / Legal Framework

(3)   Institutional Structure

(4)   Data within Government

(5)   Civic Engagement & data capabilities

(6)   Demand for Data

(7)   Financing

(8)   Technology and Skills Infrastructure

Analytical Work

Other instruments of the World Bank for Open Data

Open Data for Business (OD4B)

assessment and engagement

Open Budget data

Open Aid data

Opportunities for collaboration in Africa

- Open Data Readiness Assessments

- Open Data for Business Assessment and engagement

- Further developing Africa Open Data Community

- Next AODC, which countries/organizations willing to host it?

- Open Transport Data assessments and quick wins

- Data Revolution Roadmaps (possibly linked to ODRAs)

- Smart Nation country assessments and workshops

How can we help you?
Meet our Africa Open Data team!

Thank you!
