MECHANISM ON COTTON**

TABLE ON DOMESTIC COTTON SECTOR REFORMS

Revision

*This document has been prepared under the Secretariat's own responsibility
and is without prejudice to the positions of Members and to their rights
and obligations under the WTO*

1.1. The attached Table on Domestic Cotton Sector Reforms has been prepared on the basis of the understanding amongst participants at the 9th Round of the DGCFMC.¹ It will be subject to periodic updates.

1.2. Domestic cotton sector reforms has been a standing item on the agenda of the Director-General's Consultative Framework Mechanism on Cotton (DGCFMC) from the start of the implementation of the mandate in 2004. Under this item, the exchange of views has deepened the constructive engagement and development dialogue between development partners (providers and recipients) on cotton development assistance. The purpose of the information provided by beneficiaries of cotton development assistance on their domestic reform priorities, in the attached Table, is to identify the specific areas where assistance is urgently required from the development community on the basis of domestic reform priorities and/or action plans. The understanding amongst participants in the DGCFMC is that the information provided under this item is valuable for both providers and recipients alike in relation to promoting efficiency in resource use and fostering the partnership to enhance development assistance in the cotton sector.
